EDUCATION

BCA (Hons) 06/2023 – 06/2026
GLS University Ahmedabad, Gujarat

SKILLS

Frontend

- React.js
- Next.js
- Redux Toolkit
- Tailwind CSS
- Framer Motion
- Axios

Databases

- MongoDB
- Redis
- PostgreSQL

Tools & DevOps:

Git, GitHub, docker, Postman, Cloudinary, Razorpay Integration,

Backend

- Node.js
- Express.js
- JWT Authentication
- Firebase Authentication
- Multer

AI

LLM API Integration
Prompt Optimization
Natural Language Processing (NLP) Basics
Langchain
Langgraph

PROJECTS

SmartMockAI — AI-Powered Mock Interview Platform

React.js • Node.js • Express.js • MongoDB • Redux Toolkit • Firebase • OpenRouter AI • Razorpay • Tailwind CSS

- Developed a full-stack AI interview preparation platform using the **MERN stack**, enabling resume-based interview generation, AI-driven response evaluation, and personalized performance analytics.
- Integrated **OpenRouter AI**, **Firebase Authentication**, and **JWT-based session management** to deliver secure, role-specific mock interviews with automated scoring and structured feedback.
- Built RESTful APIs, interactive analytics dashboards, downloadable PDF reports, and a secure **Razorpay** payment system with HMAC verification, following scalable full-stack development practices.

BiogenX | Pharmaceutical Brand Website

Next.js • React.js • Tailwind CSS

- Built a production-ready pharmaceutical brand website using **Next.js**, focusing on responsive design, SEO optimization, and high-performance rendering.
- Developed reusable React components and optimized frontend architecture for maintainability, faster navigation, and seamless user experience across devices.

Piku Crochet Creations — Full-Stack E-Commerce & Management Platform

Technologies: React 18, Vite, Node.js, Express.js, MongoDB, TypeScript, Tailwind CSS, Cloudinary

- Architected and deployed a production-ready, full-stack e-commerce system featuring a high-conversion storefront, dynamic cart/wishlist management, and a dedicated admin console for product, user, and order workflows.
- Implemented enterprise-grade security protocols, including dual-domain JWT/session authentication, Google OAuth 2.0 onboarding, bcrypt password hashing, CSRF protection, and endpoint rate limiting via express-rate-limit.
- Automated secure media processing and delivery by integrating Multer and Cloudinary APIs, enabling real-time image transformation and lazy-loaded asset rendering.
